ASXC18 — TWO-STAGE, HIGH-EFFICIENCY AIR CONDITIONER

The Amana® brand ASXC18 Air Conditioner uses the chlorine-free R-410A refrigerant and is part of our new ComfortNet™ family of communicating units. In addition, the ASXC18 features energy efficiencies and operating sound levels that are among the best in the heating and cooling industry. The ASXC18 contains the two-stage, high-efficiency Copeland® scroll compressor, which provides improved temperature and humidity control. This unit is designed for the consumer who desires superb comfort and quiet operation.

Product Features

- ComfortNet™ Communicating Systems compatible
- R-410A chlorine-free refrigerant
- Two-Stage Copeland UltraTech scroll compressor
- High-density foam compressor sound blanket
- Expanded ComfortAlert diagnostics built in
- Set-up capable with 2 low-voltage wires to outdoor unit
- Diagnostic indicator lights and storage of 6 fault codes
- Color-coded terminal strip for non-communicating set-up
- High- and low-pressure switches
- Fully charged for 15' of tubing length
- Factory-installed filter dryer
- Coil and ambient temperature sensors
- Two-speed quiet condenser fan motor
- Sweat connection service valves with easy access to gauge ports
- AHRI Certified; ETL Listed
- Amana brand sound control top design
- Wire fan discharge grille
- Steel louver coil guard
- Baked-on powder-paint finish
- Rust-resistant coated screws
- Compact footprint
- Top and side maintenance access
- Single-panel access to controls with space provided for field-installed accessories
- When properly anchored, meets 2001 Florida Building Code unit integrity requirements for hurricane-type winds (Anchor bracket kits available.)

* Complete warranty details available from your local dealer or at www.amana-hac.com. To receive the Lifetime Unit Replacement Limited Warranty (good for as long as you own your home) and 10-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec.

ENERGY STAR ratings are dependent upon conditions beyond equipment installation. To make certain your HVAC equipment qualifies for the ENERGY STAR designation, get complete information at www.energystar.gov.

ASX14 — HIGH-EFFICIENCY AIR CONDITIONER

The Amana® brand ASX14 High-Efficiency Air Conditioner uses R-410A chlorine-free refrigerant. This unit features energy efficiencies and operating sound levels that are among the best in the heating and cooling industry. The ASX14 features a high-efficiency Copeland® scroll compressor that provides improved temperature and humidity control. With its 14 SEER rating, the ASX14 will help reduce energy consumption throughout the life of the system compared to U.S. federal minimum efficiency standards for 13 SEER products.

Product Features

- R-410A chlorine-free refrigerant
- Up to 15 SEER
- High-efficiency Copeland scroll compressor
- High-density foam compressor sound cover
- Copeland ComfortAlert™ diagnostics
- Low-pressure switch
- Fully-charged for 15' of tubing length
- Factory-installed filter dryer
- Two-speed condenser fan motor
- Copper tube/enhanced aluminum fin coil
- Sweat connection service valves with easy-access gauge ports
- AHRI Certified; ETL Listed
- Amana brand sound control top design
- Wire fan discharge grille
- Steel louver coil guard
- Baked-on powder-paint finish
- Rust-resistant coated screws
- Compact footprint

AMVC95 — Two-Stage, Variable-Speed Gas Furnace

Amana® brand AMCV95 Multi-Position, Two-Stage, Variable-Speed Gas Furnaces provide exceptional indoor comfort, quiet operation and features a patented stainless-steel tubular heat exchanger and durable Silicon Nitride Hot Surface Ignition system. With their two-stage gas valve, variable-speed circulator blower, these furnaces provide comfort all season long.

Product Features

- Patented, heavy-duty Million-Air™ stainless-steel dual-diameter, tubular heat exchanger
- ComfortNet™ Communicating Systems compatible
- Up to 96% AFUE
- Two-stage gas valve operates with two-stage or single-stage thermostats
- Efficient and quiet variable-speed circulator motor gently ramps up or down according to heating or cooling demand
- Durable SureStart™ Silicon Nitride igniter
- Furnace control board with self-diagnostics, color-coded low-voltage terminals and provisions for electronic air cleaners and humidifiers
- Control board stores the last 6 diagnostic codes in memory; simple push-button activation outputs the fault history to a dual 7-segment display
- Low constant fan speed allows homeowner to quietly circulate air throughout the home. This setting costs as little as a 100-watt light bulb to operate
- Dual-certified for sealed combustion direct vent (2-pipe) or non-direct vent (1-pipe) applications
- Auto-Comfort and enhanced dehumidification modes provide energy savings and additional comfort during the cooling months
- Easy-to-install top venting is standard; alternate flue/vent locations available
- Quiet, two-speed induced draft blower
- Fully insulated heavy-gauge steel cabinet with durable baked-enamel finish
- Foil-faced insulation lines the heat exchanger section
- Designed for multi-position installation: upflow, horizontal left or right
- Airtight solid bottom for side-return applications and easy-cut tabs for effortless removal in bottom air-inlet applications
- Convenient left or right connection for gas and electric service
- Coil and furnace fit flush for most installations
- All models comply with California NOx emissions standards

* Complete warranty details available from your local dealer or at www.amana-hac.com. To receive the Lifetime Unit Replacement Limited Warranty (good for as long as you own your home) and 10-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec.

ENERGY STAR ratings are dependent upon conditions beyond equipment installation. To make certain your HVAC equipment qualifies for the ENERGY STAR designation, get complete information at www.energystar.gov.

AMH95 — TwinComfort™ (Convertible), Multi-Speed Gas Furnace

The Amana® brand AMH95 Multi-Position, Twin-Comfort™, Convertible Multi-Speed Gas Furnaces provides exceptional indoor comfort and features a patented stainless-steel tubular heat exchanger and durable Silicon Nitride Hot Surface Ignition system. This quiet furnace delivers a money-saving efficiency of up to 95% AFUE compared to lower AFUE furnaces.

Product Features

- Patented, heavy-duty Million-Air™ stainless-steel dual-diameter, tubular heat exchanger
- Up to 95% AFUE
- Two-stage gas valve with revolutionary new convertible technology that allows installer to activate two-stage operation with the flip of a dipswitch
- Durable SureStart™ Silicon Nitride igniter
- Furnace control board with self-diagnostics, color-coded low-voltage terminals and provisions for electronic air cleaners and humidifiers
- Control board stores the last five diagnostic codes in memory; simple push-button activation outputs the fault history to a flashing red LED
- Low constant fan allows homeowner to activate the low-heat speed to efficiently circulate air throughout the home
- Self-adjusting feature automatically adjusts to high or low stage operation based on outside temperature without the need for an outdoor temperature sensor
- Dual-certified for sealed combustion direct vent (2-pipe) or non-direct vent (1-pipe) applications
- Easy-to-install top venting is standard; alternate flue/vent locations available
- Fully insulated heavy-gauge steel cabinet with durable baked-enamel finish
- Foil-faced insulation lines the heat exchanger section

APH15M PACKAGED HEAT PUMP

The Amana® brand APH15M Packaged Heat Pump provides high-efficiency cooling and heating performance in one self-contained unit. This unit uses R-410A chlorine-free refrigerant. The APH15M is housed in a heavy-gauge, galvanized-steel cabinet that offers a high-quality, UV-resistant powder-paint finish and allows for a ground-level or rooftop mount.

* Complete warranty details available from your local dealer or at www.amana-hac.com. To receive the Lifetime Compressor Limited Warranty (good for as long as you own your home) and 10-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec.

ENERGY STAR ratings are dependent upon conditions beyond equipment installation. To make certain your HVAC equipment qualifies for the ENERGY STAR designation, get complete information at www.energystar.gov.

Product Features

- High-efficiency compressor with internal relief valve
- Up to 15 SEER/Up to 8.2 HSPF
- ECM blower motor
- Liquid-line filter dryer
- Two-stage heating & cooling on 4- & 5-ton units
- Convertible airflow — horizontal or downflow
- Copper tube/aluminum fin coils
- Totally enclosed, permanently lubricated condenser fan motor
- Electric heat kit available as a field-installed option
- Heavy-gauge galvanized-steel cabinet with attractive Architectural Gray powder-paint finish
- Fully insulated air-handling compartment with convenient access panels
- Louvered condenser coil protection
- One footprint; two heights

APG15 PACKAGED GAS/ELECTRIC

The Amana® brand APG15 Packaged Gas/Electric unit uses the chlorine-free refrigerant R-410A and provides high-efficiency performance. This unit is housed in a heavy-gauge, zinc-coated steel cabinet with a weather-resistant, powder-paint finish and allows for a ground-level or rooftop mount, horizontal or downflow application.

Product Features

- Patented, heavy-duty Million-Air™ stainless-steel dual-diameter, tubular heat exchanger
- Up To 15 SEER/80% AFUE
- High-efficiency compressor with factory-installed sound cover; two-stage compressor on 3-, 4-, and 5-ton models
- ECM (energy-efficient) blower motor
- Fully-charged R-410A refrigerant system
- Copper tube/aluminum fin coils with TXV expansion device
- Redundant two-stage gas valve; natural gas with easy conversion to propane
- Power-assisted combustion
- Direct-spark ignition system, including a microprocessor-based control for the entire ignition sequence
- All blower operation and all safety circuits complete with self-diagnostics
- Loss-of-charge protection and high-pressure switch
- All models comply with California NOx emission standards
- AHRI Certified; ETL Listed
- Fully insulated, heavy-gauge, zinc-coated steel cabinet with UV-resistant powder-paint finish
- Fits in a standard-size pick-up truck
- One roof curb fits all units
- Convenient access panels
- Bottom 2" high base rails for easier handling

* Complete warranty details available from your local dealer or at www.amana-hac.com. To receive the Lifetime Heat Exchanger Limited Warranty and Lifetime Compressor Limited Warranty (in each case good for as long as you own your home) plus the 10-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec.

APG13 PACKAGED GAS/ELECTRIC

The Amana® brand APG13 Packaged Gas/Electric unit allows for a ground-level or rooftop mount, horizontal or downflow application. The APG13 provides you with energy-efficient performance. The unit is housed in a heavy-gauge, zinc-coated steel cabinet with weather-resistant, powder paint finish.

Product Features

- Patented, heavy-duty Million-Air™ stainless-steel dual-diameter, tubular heat exchanger
- 13 SEER/80% AFUE
- Energy-efficient compressor
- EEM blower motor on 4- & 5-ton units
- All blower operation and all safety circuits complete with self-diagnostics
- Fully-charged R-22 system
- Copper tube/aluminum fin coils
- Direct-spark ignition system, including a microprocessor-based control for the entire ignition sequence
- All models comply with California NOx emission standards
- AHRI Certified; ETL Listed
- Heavy-gauge, galvanized-steel cabinet
- Attractive Architectural Gray powder-paint finish
- Fully insulated cabinet
- Louvered condenser coil protection
- Fits in a standard-size pick-up truck
- One roof curb fits all units
- Convenient access panels
- Bottom, 2"-high base rails for easier handling

* Complete warranty details available from your local dealer or at www.amana-hac.com. To receive the Lifetime Heat Exchanger Limited Warranty and Lifetime Compressor Limited Warranty (in each case good for as long as you own your home) plus the 10-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec.

AEPF — MULTI-POSITION, VARIABLE-SPEED

The Amana® brand AEPF Multi-Position, Variable-Speed Air Handler is suitable for use with refrigerants R-410A and R-22. This unit's blower motor allows for a soft start and stop for quieter, more efficient operation and help reduce the cold blast of air upon heating start-up. Using an ECM™ motor, this air handler is ideal for new or retrofit applications.

* Complete warranty details available from your local dealer or at www.amana-hac.com. To receive the 10-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec.

Product Features

- Suitable for use with refrigerants R-410A and R-22
- Check flowrate for cooling and heat pump applications
- Variable-speed motor
- Provides constant CFM over a wide range of static pressure conditions independent of duct system; provides low CFM for efficient fan-only operation
- Up to 14 field-selectable airflow settings can be adjusted to optimize the system's CFM for each individual mode of operation
- Compatible with heat pumps and two-stage cooling applications
- Built-in coil has horizontal, upflow, and downflow drain pans with secondary connections
- Complies with the Factory-sealed Air Handling Credit with or without field-installed filter kits as listed in the 2001 Florida Building Code, Chapter 13, Section 610.2.A.2.1
- AHRI Certified; ETL Listed
- Fully insulated, painted steel cabinet with attractive Architectural Gray finish
- Multi-position — upflow, downflow, or horizontal installations
- Built-in filter rack for 1" filter (filter not included)
- Low-voltage cabinet connections; control circuit is arranged to permit staging
- Top entry for power supply; top or side low-voltage entry
- Factory-sealed to achieve 2% or less leakage rate with or without field-installed filter kits at 1.0" water gauge external duct static pressure
- 3 kW - 21 kW electric heat kits available as field-installed options

>> The AEPF air handler will be replaced by the ComfortNet Communicating systems-compatible AVPTC in the second quarter 2010.

ASPF — MULTI-POSITION, ENERGY-SAVING MOTOR AIR HANDLER

The Amana® brand ASPF Multi-Position Air Handler is suitable for use with refrigerants R-410A and R-22. This unit's blower design includes an EEM motor that can enhance the efficiency of your Amana® brand air conditioners and heat pumps.

Product Features

- Suitable for use with refrigerants R-410A and R-22
- Check flowrate for cooling and heat pump applications
- Energy-efficient, fixed-speed motor (EEM)
- Built-in coil has horizontal, upflow, and downflow drain pans with secondary drain connections
- Complies with the Factory-sealed Air Handling Credit with or without field-installed filter kits as listed in the 2001 Florida Building Code, Chapter 13, Section 610.2.A.2.1
- AHRI Certified; ETL Listed
- Fully insulated, painted steel cabinet with attractive Architectural Gray finish
- Multi-position — upflow, downflow or horizontal installations
- Built-in filter rack for 1" filter (filter not included)
- Low-voltage cabinet connections
- Power supply on top; low-voltage entry on top or side
- Factory-sealed to achieve 2% or less leakage rate at 1.0" water gauge external duct static pressure
- 3 kW - 21 kW electric heat available as a field-installed option

* Complete warranty details available from your local dealer or at www.amana-hac.com. To receive the 10-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec.

ARPF — MULTI-POSITION, MULTI-SPEED AIR HANDLER

The Amana® brand ARPF Multi-Position, Multi-Speed Air Handler is suitable for use with refrigerants R-410A and R-22. This unit features a check flowrater expansion device as well as direct-drive, multi-speed motor for air volume variation. The ARPF may be installed in a variety of locations.

Product Features

- Suitable for use with refrigerants R-410A and R-22
- Check flowrater for cooling and heat pump applications
- Direct-drive, multi-speed motor
- Transformer and blower time-delay on all units
- Complies with the Factory-sealed Air Handling Credit with or without field-installed filter kits as listed in the 2001 Florida Building Code, Chapter 13, Section 610.2.A.2.1
- AHRI Certified; ETL Listed
- Fully insulated, painted cabinet with attractive Architectural Gray paint finish

ADPF — DOWNFLOW, MULTI-SPEED AIR HANDLER

The Amana® brand ADPF Downflow Multi-Speed Air Handlers are suitable for use with refrigerants R-410A and R-22. These units feature a check flowrater expansion device and direct-drive, multi-speed motor for air volume variation.

Product Features

- Suitable for use with refrigerants R-410A and R-22
- Check flowrater for cooling and heat pump applications
- Direct-drive, multi-speed motor
- Transformer and blower time-delay on all units
- Dedicated downflow design requires no field modification
- AHRI Certified; ETL Listed
- Fully insulated, painted steel cabinet with attractive Architectural Gray paint finish
- Built-in coil has a downflow drain pan with secondary drain connections
- Power-supply entry at top; low-voltage entry on left side and top
- 3 kW - 21 kW electric heat kits available as field-installed options

MBVC — MODULAR BLOWERS

The Amana® brand MBVC modular blowers are tailor-made for exceptional energy efficiency. Now fully compatible with the ComfortNet™ line of communicating equipment, these two-piece blowers increase both installation and application flexibility. Units can be matched with cased coils for upflow, downflow, and horizontal applications. Using an ECM™ motor, this modular blower is ideal for new or retrofit applications.

Product Features

- Compatible with the ComfortNet Communicating System family of products
- Variable-speed blower motor
- Auto configuration of the airflow and tonnage in communicating mode
- CFM indicator
- Maximum four low-voltage wires required for operation in communicating mode
- Built-in dehumidify feature
- Diagnostic indicator lights
- Storage of six prior fault codes
- Programmable heat strip settings
- Color-coded terminal strip for non-communicating set-up
- Cooling and heat pump applications
- AHRI Certified; ETL Listed
- Painted, galvanized steel cabinet
- Blower section usable as an electric furnace
- Foil-faced insulation is glued in place and covers entire blower case, reducing sound and cabinet condensation
- Bottom flanges formed inward for additional strength, and to provide mounting surface for cased-coil section

* Complete warranty details available from your local dealer or at www.amana-hac.com. To receive the 10-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec.

MBR — MODULAR BLOWERS

The Amana® brand MBR Modular Blowers are tailor-made for exceptional energy efficiency. These blowers are designed with quality components and assembled with excellent craftsmanship. When matched with our cased coils for upflow, downflow, and horizontal applications, these two-piece blower coils increase both installation and application flexibility.

* Complete warranty details available from your local dealer or at www.amana-hac.com. To receive the 10-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec.

Product Features

- Contains a multi-speed blower — motor speed is easily changed
- Cooling or heat pump applications: upflow, downflow, and horizontal applications
- Control board includes a fan delay in the cooling mode and is isolated from the air stream
- 3 kW - 21 kW electric heat kits available as field-installed options
- AHRI Certified; ETL Listed
- Durable cabinet of painted galvanized steel
- Foil-faced insulation lines the cabinet to help reduce operating sound and possible cabinet condensation

AWUF — WALL MOUNT

The Amana® brand AWUF Air Handler is designed to be vertically wall- or stud-mounted. This unit features a check flowrater and direct-drive, multi-speed motor. The AWUF is housed in a fully insulated, galvanized-steel cabinet.

Product Features

- Suitable for use with refrigerants R-410A and R-22
- Check flowrater for cooling and heat pump applications
- Direct-drive, multi-speed motor
- Sequence-controlled, rust-resistant nickel chromium heating elements of 5, 8 and 10 kW
- Rifled aluminum tubing and corrugated aluminum fins
- AHRI Certified; ETL Listed
- Thermoplastic drain pan with bottom primary/secondary drain connection
- Built-in filter rack (filter included)
- Factory-installed pull-type disconnect
- Large chassis (2½- and 3-ton units) – front return only;
Small chassis (1½- and 2-ton units) – front or bottom return
- Wall-hanging bracket provided

* Complete warranty details available from your local dealer or at www.amana-hac.com. To receive the 10-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec.

CAUF — UNCASED UPFLOW/DOWNFLOW INDOOR COIL

The Amana® brand CAUF Uncased Upflow/Downflow Indoor Coils are made for split system air conditioners and heat pumps. This coil features rifled copper tubing and corrugated aluminum fins and rust-resistant, high-temperature, thermoplastic drain pans.

Product Features

- Suitable for use with R-410A and R-22 refrigerants
- Rust-resistant, high-temperature, thermoplastic drain pans feature a low water-retention design
- Check flowrate for cooling and heat pump applications
- Rifled copper tubing and corrugated aluminum fins
- AHRI Certified; ETL Listed

* Complete warranty details available from your local dealer or at www.amana-hac.com. To receive the 10-Year Parts Limited Warranty, online registration must be completed within 60 days of installation and the unit must be installed in conjunction with a new split system air conditioner or heat pump to which it is properly matched by the installer. Online registration is not required in California or Quebec.

CSCF — HORIZONTAL SLAB EVAPORATOR COILS

The Amana® brand CSCF Horizontal Slab Evaporator Coils are made for split system air conditioners and heat pumps. This unit features a check flowrate expansion device and rust-resistant, high-temperature, thermoplastic drain pan. Each coil's cabinet has a quality, galvanized-steel finish.

* Complete warranty details available from your local dealer or at www.amana-hac.com. To receive the 10-Year Parts Limited Warranty, online registration must be completed within 60 days of installation and the unit must be installed in conjunction with a new split system air conditioner or heat pump to which it is properly matched by the installer. Online registration is not required in California or Quebec.

Product Features

- Suitable for use with R-410A and R-22 refrigerants
- Rust-resistant, high-temperature, thermoplastic drain pan with secondary drain connection
- Check flowrate for cooling and heat pump applications
- Rifled copper tubing and corrugated aluminum fin coils
- Compact, versatile, right or left horizontal position
- Copper sweat connections
- AHRI Certified; ETL Listed

SSX16/SSX14 — HIGH-EFFICIENCY AIR CONDITIONER

The Amana® Distinctions™ brand SSX16 and SSX14 High-Efficiency Air Conditioners use the chlorine-free refrigerant R-410A and feature a high-efficiency Copeland® scroll compressor plus energy efficiencies and operating sound levels that are among the best in the heating and cooling industry. The SSX16 and SSX14 are designed for the consumer who desires superb comfort and quiet operation.

Product Features

- R-410A chlorine-free refrigerant
- Up to 16 SEER / Up to 15 SEER
- High-efficiency Copeland scroll compressor
- High-quality compressor sound cover
- High-pressure switch; low-pressure switch
- Factory-installed filter dryer
- 850-RPM condenser fan motor
- Copper tube/enhanced aluminum fin coil
- Sweat connection service valves with easy access to gauge ports
- Contactor with lug connection
- Ground lug connection
- AHRI Certified; ETL Listed
- Amana brand sound control top design
- Heavy-gauge galvanized-steel cabinet
- Attractive Architectural Gray powder-paint finish with 500-hour salt-spray approval
- Top and side maintenance access
- Single-panel access to controls with space provided for field-installed accessories
- When properly anchored, meets 2001 Florida Building Code unit integrity requirements for hurricane-type winds (Anchor bracket kits available.)

* Complete warranty details available from your local dealer or at www.amana-hac.com. To receive the Lifetime Compressor Limited Warranty (good for as long as you own your home) and 10-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec.

ENERGY STAR ratings are dependent upon conditions beyond equipment installation. To make certain your HVAC equipment qualifies for the ENERGY STAR designation, get complete information at www.energystar.gov.

GSX13 — ENERGY-EFFICIENT AIR CONDITIONER

The Amana® Distinctions™ brand GSX13 Energy-Efficient Air Conditioner uses the chlorine-free refrigerant R-410A and features operating sound levels that are among the best in the heating and cooling industry. With a 13 SEER rating, the GSX13 will help reduce energy consumption throughout the life of the system compared to lower SEER-rated equipment.

Product Features

- R-410A chlorine-free refrigerant
- 13 SEER
- Energy-efficient scroll compressor
- Factory-installed liquid line filter dryer
- Copper tube/aluminum fin coil
- Brass liquid and suction line service valves
- Contactor with lug connection
- Ground lug connection
- AHRI Certified; ETL Listed
- Amana brand sound control top design
- Baked-on powder-paint finish
- Rust-resistant coated screws
- Compact footprint
- Top and side maintenance access
- Single-panel access to controls with space provided for field-installed accessories
- When properly anchored, meets 2001 Florida Building Code unit integrity requirements for hurricane-type winds (Anchor bracket kits available.)

* Complete warranty details available from your local dealer or at www.amana-hac.com. To receive the 10-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec.

GSC13 — ENERGY-EFFICIENT AIR CONDITIONER

The Amana® Distinctions™ brand GSC13 Energy-Efficient Air Conditioner offers economical and dependable cooling comfort and energy-efficient performance. The GSC13 has been designed with application flexibility, convenient service, maintenance, and installation in mind. Value-driven engineering, reliable components, and our quality manufacturing make GSC13 units perfect for the value-minded homeowner or cost-conscious builder.

* Complete warranty details available from your local dealer or at www.amana-hac.com. To receive the 10-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec.

Product Features

- Energy-efficient compressor
- 13 SEER
- R-22 refrigerant-charged for 15' of refrigerant lines
- Factory-installed filter dryer
- Copper tube/enhanced aluminum fin coil
- Sweat connection service valves with easy-access gauge ports
- AHRI Certified; ETL Listed
- Amana brand sound control top design
- Baked-on powder-paint finish
- Rust-resistant coated screws
- Compact footprint
- Top and side maintenance access
- Single-panel access to controls with space provided for field-installed accessories
- When properly anchored, meets 2001 Florida Building Code unit integrity requirements for hurricane-type winds (Anchor bracket kits available.)

SSZ16/SSZ14 — HIGH-EFFICIENCY HEAT PUMP

The Amana® Distinctions™ brand SSZ16 and SSZ14 High-Efficiency Heat Pumps use the chlorine-free refrigerant R-410A and feature a high-efficiency Copeland® scroll compressor. The SSZ16 and SSZ14 Heat Pumps feature energy efficiencies and operating sound levels that are among the best in the heating and cooling industry.

Product Features

- R-410A chlorine-free refrigerant
- SSZ16 Up to 16 SEER/Up to 9.75 HSPF
- SSZ14 Up to 15 SEER/Up to 8.5 HSPF
- High-efficiency Copeland scroll compressor
- High-quality compressor sound cover
- High-pressure switch; low-pressure switch
- Factory-installed bi-flow liquid-line filter dryer
- 850-RPM condenser fan motor
- Copper tube/enhanced aluminum fin coil
- Sweat connection service valves with easy access to gauge ports
- Contactor with lug connection
- Ground lug connection
- AHRI Certified; ETL Listed
- Amana brand sound control top design
- Heavy-gauge galvanized-steel cabinet
- Attractive Architectural Gray powder-paint finish with 500-hour salt-spray approval
- Top and side maintenance access
- Single-panel access to controls with space provided for field-installed accessories
- When properly anchored, meets 2001 Florida Building Code unit integrity requirements for hurricane-type winds (Anchor bracket kits available.)

* Complete warranty details available from your local dealer or at www.amana-hac.com. GMVC95 — Two-Stage, Variable-Speed Gas Furnace

The Amana® Distinctions™ brand GMVC95 Two-Stage, Variable-Speed Gas Furnaces feature a patented aluminized-steel, dual-diameter tubular heat exchanger and durable Silicon Nitride Hot Surface Ignition system.

Product Features

- Patented aluminized-steel, dual-diameter tubular heat exchanger
- Up to 95% AFUE
- ComfortNet™ Communicating Systems compatible
- Two-stage gas valve operates with two-stage or single-stage thermostats
- Efficient and quiet variable-speed circulator motor gently ramps up or down according to heating or cooling demand
- Durable Silicon Nitride igniter
- Furnace control board with self-diagnostics, color-coded low-voltage terminals and provisions for electronic air cleaners and humidifiers
- Low constant fan speed allows homeowner to quietly circulate air throughout the home. This setting costs as little as a 100-watt light bulb to operate.
- Dual-certified for sealed combustion direct vent (2-pipe) or non-direct vent (1-pipe) applications
- Auto-Comfort and enhanced dehumidification modes provide energy savings and additional comfort during the cooling months
- Easy-to-install top venting is standard; alternate flue/vent located on right
- Quiet two-speed induced draft blower
- Fully insulated heavy-gauge steel cabinet with durable baked-enamel finish
- Foil-faced insulation lines the heat exchanger section
- Designed for multi-position installation: upflow, horizontal left, or right
- Airtight solid bottom for side-return applications and easy-cut tabs for effortless removal in bottom air-inlet applications
- Convenient left or right connection for gas and electric service
- Coil and furnace fit flush for most installations
- All models comply with California NOx emissions standards

* Complete warranty details available from your local dealer or at www.amana-hac.com. To receive the Lifetime Heat Exchanger Limited Warranty (good for as long as you own your home), 10-Year Unit Replacement Limited Warranty and 10-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec.

ENERGY STAR ratings are dependent upon conditions beyond equipment installation. To make certain your HVAC equipment qualifies for the ENERGY STAR designation, get complete information at www.energystar.gov.

Product Features

- Patented aluminized-steel, dual-diameter tubular heat exchanger
- Up to 95% AFUE
- Two-stage gas valve with revolutionary new convertible technology that allows installer to activate two-stage operation with the flip of a dipswitch
- Durable Silicon Nitride igniter
- Furnace control board with self-diagnostics, color-coded low-voltage terminals and provisions for electronic air cleaners and humidifiers
- Control board stores the last five diagnostic codes in memory; simple push-button activation outputs the fault history to a flashing red LED
- Low constant fan allows homeowner to activate the low-heat speed to efficiently circulate air throughout the home
- Self-adjusting feature automatically adjusts to high or low stage operation based on outside temperature without the need for an outdoor temperature sensor
- Dual-certified for sealed combustion direct vent (2-pipe) or non-direct vent (1-pipe) applications
- Easy-to-install top venting is standard; alternate flue/vent locations available
- Fully insulated heavy-gauge steel cabinet with durable baked-enamel finish
- Foil-faced insulation lines the heat exchanger section
- Designed for multi-position installation: upflow, horizontal left or right
- Airtight solid bottom for side-return applications and easy-cut tabs for effortless removal in bottom air-inlet applications

ENERGY STAR ratings are dependent upon conditions beyond equipment installation. To make certain your HVAC equipment qualifies for the ENERGY STAR designation, get complete information at www.energystar.gov.

Product Features

- Patented aluminized-steel, dual-diameter tubular heat exchanger
- Up to 92.1% AFUE
- Single-stage combination redundant gas valve
- Hot-surface igniter and patented adaptive learning control
- Energy-saving, quiet four-speed direct-drive circulator blower motor
- Furnace control board with self-diagnostics and low-voltage terminal block
- Dual-certified for sealed combustion direct vent (2-pipe) or non-direct vent (1-pipe) applications
- Easy-to-install top venting is standard
- Quiet, single-speed induced draft blower
- Foil-faced insulation lines the heat exchanger section
- Designed for upflow installation but can be converted to horizontal left or right with a pressure switch kit (sold separately)
- Airtight solid bottom for side-return applications and easy-cut tabs for effortless removal in bottom air-inlet applications
- Coil and furnace fit flush for most installations
- All models comply with California NOx emissions standards

GMVC8 — Two-Stage, Variable Speed Gas Furnace

The Amana® Distinctions™ brand GMVC8 Two-Stage, Variable-Speed Multi-Position, Gas Furnace provides exceptional indoor comfort and quiet operation. With its two-stage gas valve and variable-speed circulator blower, this furnace provides comfort all season long.

Product Features

- Aluminized steel, dual-diameter tubular heat exchanger
- 80% AFUE
- Convenient 33⅝" height unit
- Two-stage gas valve operates on two-stage or single-stage thermostats
- ComfortNet™ Communicating Systems compatible
- Efficient and quiet variable-speed circulator motor gently ramps up or down according to heating or cooling demand
- Silicon Nitride igniter designed for long igniter life
- Furnace control board with self-diagnostics, color-coded low-voltage terminals, and provisions for electronic air cleaner and 120-volt or 24-volt humidifiers
- Low constant fan speed allows homeowner to activate a very low speed, efficiently circulating air throughout the home. This setting costs as little as a 100-watt light bulb to operate.
- Quiet, two-speed induced draft blower
- All models comply with California NOx emissions standards
- Fully insulated, heavy-gauge steel cabinet with durable baked-enamel finish
- Designed for multi-position installation: upflow, horizontal left or right
- Removable bottom for side- or bottom-return applications
- Coil and furnace fit flush for most installations

* Complete warranty details available from your local dealer or at www.amana-hac.com. To receive the Lifetime Heat Exchanger Limited Warranty (good for as long as you own your home), 10-Year Unit Replacement Limited Warranty and 10-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec.

GMH8 — TWINCOMFORT™ (CONVERTIBLE), MULTI-SPEED GAS FURNACE

The Amana® Distinctions™ brand GMH8 TwinComfort™ (Convertible), Multi-Speed Multi-Position Gas Furnace features a patented aluminized-steel, dual-diameter tubular heat exchanger and durable Silicon Nitride Hot-Surface Ignition system. This furnace is run-tested for heating or combination heating/cooling applications. With a heavy-gauge, reinforced, insulated steel cabinet and durable baked enamel finish, this unit can be installed in a variety of locations.

* Complete warranty details available from your local dealer or at www.amana-hac.com. To receive the Lifetime Heat Exchanger Limited Warranty (good for as long as you own your home), 10-Year Unit Replacement Limited Warranty and 10-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec.

Product Features

- Patented aluminized-steel, dual-diameter tubular heat exchanger
- Convenient 33 $\frac{3}{8}$ " height unit
- Two-stage gas valve with convertible technology that allows installer to activate two-stage operation with the flip of a dipswitch
- Durable 110V Silicon Nitride igniter
- Furnace control board with self-diagnostics, color-coded low-voltage terminals, and provisions for electronic air cleaner and 24-volt humidifiers
- Control board stores the last five diagnostic codes in non-volatile memory; simple push-button activation outputs the fault history to a flashing red LED
- Low constant fan speed allows homeowner to activate the low-heat speed fan and to efficiently circulate air throughout the home
- Self-adjusting feature automatically adjusts furnace to high or low stage based on outside temperature without the need for an outdoor temperature sensor
- Fully insulated heavy-gauge steel cabinet with durable baked-enamel finish
- Foil-faced insulation lines the heat exchanger
- Designed for multi-position installation: upflow, horizontal left or right
- Removable bottom for side- or bottom-return applications
- Convenient left or right connection for gas and electric service
- Coil and furnace fit flush for most installations

GME8/GDH8 — TWINCOMFORT™ (CONVERTIBLE), MULTI-SPEED GAS FURNACE

The Amana® Distinctions™ brand GME8/GDH8 Twin-Comfort™ Multi-Speed, Multi-Position Gas Furnace features a patented aluminized-steel, dual-diameter tubular heat exchanger and durable Silicon Nitride Hot-Surface Ignition system. With a heavy-gauge, reinforced, insulated steel cabinet and durable baked enamel finish, these units can be installed in a variety of locations.

Product Features

- Patented aluminized-steel, dual-diameter tubular heat exchanger
- 80% AFUE
- Convenient 33 $\frac{3}{4}$ " height unit
- Two-stage gas valve with revolutionary new convertible technology that allows installer to turn on two-stage operation with the flip of a dipswitch
- GME8 contains an efficient EEM circulator motor that saves energy in the heating and cooling months
- Durable Silicon Nitride igniter
- Furnace control board with self-diagnostics, color-coded low-voltage terminals and provisions for electronic air cleaners and humidifiers
- Control board stores the last five diagnostic codes in memory; simple push-button activation outputs the fault history to a flashing red LED
- Low constant fan allows homeowner to activate the low-heat speed to efficiently circulate air throughout the home
- Self-adjusting feature automatically adjusts furnace to high or low stage based on outside temperature without the need for an outdoor temperature sensor
- Fully insulated heavy-gauge steel cabinet with durable baked-enamel finish
- Foil-faced insulation lines the heat exchanger section
- Designed for multi-position installation:
GME8: upflow, horizontal left or right
GDH8: dedicated downflow
- Convenient left or right connection for gas and electric service
- Coil and furnace fit flush for most installations
- All models comply with California NOx emissions standards

GMS8/GHS8/GDS8 — SINGLE-STAGE, MULTI-SPEED GAS FURNACE

The Amana® Distinctions™ brand GMS8/GDS8/GHS8 Multi-Position, Single-Stage, Multi-Speed Gas Furnaces provide exceptional indoor comfort. With a single-stage gas valve, multi-speed circulator blower, these models provide comfort all season long. These quiet furnaces deliver a energy-saving 80% AFUE compared to lower AFUE furnaces.

Product Features

- Patented aluminized-steel, dual-diameter tubular heat exchanger
- 80% AFUE
- Convenient 33½" height unit
- Single-stage combination redundant gas valve
- Hot-surface igniter
- Energy-saving, quiet, four-speed direct-drive circulator blower motor
- Furnace control board with self-diagnostics and low-voltage terminal block
- Quiet, single-speed induced draft blower
- Foil-faced insulation lines the heat exchanger section
- Designed for multi-position installation:
GMS8/GHS8 — upflow, horizontal left or right
GDS8 — dedicated downflow
- Coil and furnace fit flush for most installations

GPC15M PACKAGED AIR CONDITIONER

The Amana® Distinctions™ brand GPC15M Packaged Units use the chlorine-free refrigerant R-410A and feature high-efficiency cooling and heating performance in one self-contained unit. The GPC15M Packaged Units are housed in a heavy-gauge, galvanized-steel cabinet protected by a high-quality, UV-resistant powder-paint finish and allows for a ground-level or rooftop mount.

Product Features

- High-efficiency compressor with internal relief valve
- Up to 15 SEER
- EEM blower motor
- Convertible airflow: horizontal or downflow
- Copper tube/aluminum fin coils
- Totally enclosed, permanently lubricated condenser fan motor
- Fully-charged chlorine-free R-410A refrigerant
- Electric heat kit available as a field-installed option
- Heavy-gauge galvanized-steel cabinet with attractive Architectural Gray powder-paint finish
- Fully insulated air-handling compartment with convenient access panels
- Louvered condenser coil protection
- One footprint; two heights

* Complete warranty details available from your local dealer or at www.amana-hac.com. To receive the 10-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec.

- Copper tube/aluminum fin coil
- Totally enclosed, permanently lubricated condenser fan motor
- Suitable for use with R-410A and R-22 refrigerants
- 5 kW to 20 kW electric heat kits available as field-installed options
- AHRI Certified; ETL Listed
- Heavy-gauge, galvanized-steel cabinet with attractive Architectural Gray powder-paint finish
- Fully insulated blower compartment with convenient access panels
- Louvered condenser coil protection
- One footprint; three heights

GPH13H PACKAGED HEAT PUMP

The Amana® Distinctions™ brand GPH13H 2- to 5-ton single-phase Packaged Units feature energy-efficient cooling and heating performance in one self-contained unit. These units are housed in a heavy-gauge, galvanized-steel cabinet protected by a high-quality, UV-resistant powder-paint finish. The GPH13H allows for ground-level or rooftop applications, and approved for manufactured or modular homes.

Product Features

- Energy-efficient compressor with internal relief valve
- 13 SEER / up to 8.0 HSPF
- PSC blower motor; EEM blower motor on 5-ton units
- Quiet horizontal discharge
- Copper tube/aluminum fin coil
- Totally enclosed, permanently lubricated condenser fan motor
- Suitable for use with R-410A and R-22 refrigerants
- 5 kW to 20 kW electric heat kits available as field-installed options
- AHRI Certified; ETL Listed
- Heavy-gauge, galvanized-steel cabinet with attractive Architectural Gray powder-paint finish
- Fully insulated blower compartment with convenient access panels
- Louvered condenser coil protection
- One footprint; three heights

A1EAC — UP TO 1" CHARGED MEDIA

The Amana® brand A1EAC 1" Charged-Media Electronic Air Cleaner provides a 24-volt, polarized charge on the media pads to capture and removes airborne particles as small as 0.01 micron. Contributing to the air cleaner's reliable operation is its carbon-graphite center charging screen, which is permanently mounted to the air cleaner frame. Attached to each of the frame's four corners, internal center screen spacers are open-faced to maximize airflow. For added durability, a one-piece, injection-molded power head is "capped" and sealed to be watertight.

* Complete warranty details available from your local dealer or at www.amana-hac.com.

Product Features

- Does not produce hazardous ozone or positive ions
- Fits into any one-inch filter opening
- Quiet operation
- Fully electronic, reliable, high-efficiency carbon-graphite center screen removes small airborne particles
- Efficiency increases as the air cleaner operates
- Designed to operate with constant power or with the system's fan
- Easily removable, high-density, multi-layered replacement media pads
- Fits all central HVAC residential systems
- Stainless-steel latches provide durability
- Corrosion-resistant construction
- Open-face design maintains low static pressure
- Independently tested and certified
- MERV-10 Rated Efficiency (ASHRAE Standard 52.2)

ARAM — HIGH-EFFICIENCY RIGHT-ANGLE MEDIA AIR CLEANER

Product Features

- High-efficiency MERV 11 Media Filter removes air contaminants down to 0.3 micron
- Reversible airflow
- User-friendly, easy-to-change filter
- Adjustable inlet duct opening replaces need for field-forming transition
- Helps to protect and prolong the life of heating and cooling equipment
- Heavy-gauge galvanized steel
- Durable, powder-paint finish on doors resists corrosion
- Vertical or horizontal installation
- Two access doors allow versatile installation
- Pre-drilled holes facilitate mounting the unit to duct work or air-handling system

* Complete warranty details available from your local dealer or at www.amana-hac.com.

A13MU — HIGH-EFFICIENCY MEDIA AIR CLEANER

Product Features

- High-efficiency MERV 13 Media Filter Removes airborne contaminants down to 0.3 micron
- Extra deep, 5 1/4", 26-pleat filter contains more media material than other filters on the market.
- Filter fits snugly into cabinet
- User-friendly, easy-to-change filter cartridge
- Filter lasts up to one year in standard applications
- Reversible airflow
- Easily upgrades to the new Amana brand "D Series" High-Efficiency Electronic Air Cleaner
- Heavy-gauge galvanized-steel cabinet resists corrosion
- Vertical or horizontal installation

* Complete warranty details available from your local dealer or at www.amana-hac.com.

AGM — HIGH-EFFICIENCY GRILLE MOUNT ELECTRONIC AIR CLEANER

Product Features

- Pre-filters (2) constructed of aluminum mesh to help prevent lint and large particles from entering collecting cells
- Collecting cells (2) constructed of heavy-gauge aluminum for durability and ease of maintenance
- Plastic intake grille is easy to wipe clean
- Hinged, swing-out door allows easy access to filters
- Automatic interlock switch disconnects power when door is opened
- Air-proving switch allows for quick wiring; automatically cycles air cleaner on/off with the system fan
- Performance indicator light ensures air cleaner is operating properly
- Solid-state power board equipped with a variable resistor to adjust high-voltage output
- Wall or ceiling mounted

* Complete warranty details available from your local dealer or at www.amana-hac.com.

SPECIFICATIONS	MODEL AGM20AS-A
Airflow	Up to 2,000 CFM (up to 3,398 m ³ /hr)
Duct Size	22" x 29.1" (55.9 x 73.9 cm)
Cabinet Dimensions	31.4" x 24.4" x 7" (79.8 x 62 x 17.8 cm)
Weight	38 lbs (17.5 kg)
Power	120 v/60 Hz/30 watts

ASAS — HIGH-EFFICIENCY ELECTRONIC AIR CLEANER

Product Features

- Chlorine-free lifetime filtration system electronically removes air pollutants down to 0.01 micron
- Carbon filters remove odors
- Dual indicator lights show unit operation at a glance
- Electronic Air Proving Switch cycles the air cleaner on/off with the system fan
- Includes dual indicator lights
- Replacement filters available; see table below
- Heavy-gauge galvanized-steel cabinet provides trouble-free vertical or horizontal installation
- Durable powder-coat paint finish resists corrosion

* Complete warranty details available from your local dealer or at www.amana-hac.com.

AHEPA/ADMHEPA — WHOLE-HOUSE HEPA AIR CLEANERS

The Amana® brand AHEPA/ADMHEPA Whole-House True HEPA Air Cleaners are designed to help protect and prolong the operating efficiency of the heating and cooling equipment. The activated carbon pre-filter and the optional after-filter remove atmospheric and household particles. While the AHEPA models are easily installed in a free-standing position, the ADMHEPA models have various installation options (duct-mounted, collar-mounted, or free-standing).

AHEPA Model

ADMHEPA Model

* Complete warranty details available from your local dealer or at www.amana-hac.com.

Product Features

- Certified true HEPA (High-Efficiency Particulate Air) filter
- 99.97% efficient at removing particles down to 0.3 micron
- Activated carbon pre-filter
- Carbon VOC (Volatile Organic Compound) filter (included with Model AHEPA550)
- Removes atmospheric and household particles
- Easy-to-change filters
- Power cord for plug-in; no electrical wiring
- Versatile installation —
AHEPA: free-standing, ceiling-mounted, or wall-mounted
ADMHEPA: free-standing, duct-mounted, or collar-mounted
- Heavy-gauge steel cabinet
- Powder-paint finish
- Corrosion-resistant cabinet provides rigid installation and durability

DMH900 — WHOLE-HOUSE HEPA AIR CLEANER WITH UV LIGHT & PHOTO-CATALYTIC OXIDATION FILTER

The Amana® brand DMH900 Whole-House Air Cleaner uses HEPA, UVC Germicidal Lights (non-ozone producing) and CinQuartz® Photo-Catalytic Oxidation to filter and sterilize the air. This unit removes and destroys allergens and atmospheric dust, as well as biological and chemical contaminants and odors. The DMH900 can be mounted in a variety of positions: duct-mounted, collar-mounted, or free-standing.

Product Features

- 99.97% efficient at removing particles down to 0.3 micron
- Carbon Prefilter protects the HEPA filter while removing odors, lint, hair and larger particles
- 9.97% HEPA Media Filter removes particles 0.3 micron (1/84,000 of an inch) and larger
- Two UVC Germicidal Lights enclosed in an anodized UV Reflector to intensify UV rays
- The UVC light and CinQuartz® Photo-Catalytic Oxidation (PCO) filter decompose organic materials into basic molecules such as H₂O and CO₂.
- Carbon/Potassium Permanganate Final Filter for removal of organic compounds and light gases
- Motor delivers 250 CFM of air, without adding static pressure to the HVAC system
- Versatile installation — duct-mounted, collar-mounted, or free-standing
- One-piece steel cabinet wrap
- Powder-coat paint finish
- Pre-punched openings and mounting template for easier installation; no external ducting required

* Complete warranty details available from your local dealer or at www.amana-hac.com.

UVX — ULTRAVIOLET PURIFIERS

The Amana® brand UVX Ultraviolet Air and Object Purifiers are ideal for offices, lounges, smoking rooms, daycare centers, and any location where clean air is desired. Specific units come with a high-intensity, 19mm, quartz, germicidal UVC lamp (UVX-PR Series) and UVC/UVV germicidal oxidizing lamp (UVX-DM Series). Units also feature the ultra-bright LED “Smart Lamp System” visual display.

* Complete warranty details available from your local dealer or at www.amana-hac.com.

Product Features for UVX-DM1700/UVX-DM4000 – Air Purifier

- Reduces chemical and biological odors and volatile organic compounds
- Larger, high-intensity UVC/UVV 19mm, quartz, dual-zone lamp for more purifying area
- Easy, one-lever lamp clamp
- Patented, high-efficiency aluminum turbulator at reflector inlet slows contaminated air to be mixed around the UV lamp
- Aluminum reflector can be rotated in 90° increments on the back plate
- Designed to be installed in the return plenum
- Hard-wired to HVAC System UVX-DM1700
- In-duct installation for whole-house purification
- “Plug & Play” operation; pressure sensor automatically turns purifier on and off
- High-intensity, 19mm quartz germicidal UVC lamp and UVC/UVV germicidal oxidizing lamp
- Ultra-Bright LED “Smart Lamp System” visual display
- CSA/NRTL certified

Product Features for UVX-PR12/UVX-PR18 – Object Purifier

- Reduces bacteria, mold, and viruses
- Patent-pending, aluminum parabolic reflector directs and intensifies all UV energy to the desired area, ensuring a coil free of microbial growth
- Parabolic reflector can be rotated 360 degrees around the lamp
- Multi-position Installation — installed above or inside the A-coil, keeps it free of biological contaminants, including mold and fungus
- Parabolic reflector is designed to protect the drain pan from UV degradation
- Lamp available in 12” and 18” lengths
- High-intensity, 19mm quartz germicidal UVC lamp
- Ultra-Bright LED “Smart Lamp System” visual display
- CSA/NRTL certified

HRV/ERV — HEAT & ENERGY RECOVERY VENTILATORS

The Amana® brand HRV/ERV Heat/Energy Recovery Ventilators are easy to install and service. The fully insulated cabinet, with 1" high-density, polystyrene foam insulation, prevents condensation and meets the requirements of the UL 94 HF. The unit is constructed of galvanized-steel and finished with a powder-paint finish.

Product Features

- Energy-efficient aluminum HRV core and enthalpy ERV core are configured for efficient cross-flow ventilation
- Designed to withstand extreme temperature variations
- Factory-balanced EBM™ external rotor motors with backward-curved blades
- External, three-position (Low/Stand-by/Medium) rocker switch for continuous ventilation
- State-of-the-art control boards provide easy connection to existing HVAC equipment
- Screw-type dial on electrical box allows supply air to be adjusted to match exhaust airflow
- Optional remote controls provide easy operation
- Easy-access door, service light indicator, and external electrical box for easy service and maintenance
- Advanced Defrost Cycle (HRV Series)
- Two washable, electrostatic, panel-type air filters
- Fully insulated cabinet with 1" high-density, polystyrene foam insulation prevents condensation and meets the requirements of the UL 94 HF
- Galvanized-steel cabinet with powder-paint finish
- Permanently lubricated, sealed motor bearings
- Factory-supplied installation kit

HUM — FLOW-THROUGH BYPASS HUMIDIFIERS

The Amana® brand HUM Bypass and Fan-Powered High-Capacity Humidifiers are a good choice for homes with warm-air heating systems. The durable thermoplastic cabinet resists rust, corrosion, and warping. Its UV-resistant plastic is Architectural Gray.

Product Features

- Designed to fit today's narrower plenums, as narrow as 10" and 14"
- Reversible side panels with snap-lock fittings permit easy change; left- or right-side bypass installation
- Ideal for installations where the return-air plenum is not easily accessible
- Summer shut-off damper reduces bypass air through the humidifier during the summer months, allowing the air conditioner to run more efficiently and economically
- Improved wicking and water distribution system accommodates non-level plenums
- Low profile makes unit ideal where space is limited
- Evaporator pad dispenses water evenly in front of a warm air stream to evaporate and efficiently raise the humidity level
- Durable, UV-resistant thermoplastic cabinet resists rust, corrosion, and warping

COMFORTNET™ COMMUNICATING CONTROL SYSTEM

The ComfortNet™ brand digital thermostats work with Amana brand ECM-based furnaces and air handlers and 16 & 18 SEER two-stage air conditioners and heat pumps.

* Complete warranty details available from your local dealer or at www.amana-hac.com. To receive the 10-Year Control Limited Warranty, the control must be installed in conjunction with a new furnace or air handler containing a communicating system that is compatible with the control and, if that furnace/air handler is a Goodman® or Amana® brand unit, that furnace/air handler must have been registered online within 60 days of installation of the furnace/air handler. Failure by Quebec or California residents to have registered a Goodman® or Amana® brand furnace/air handler does not diminish their warranty rights.

Product Features

- Automatic system configuration ensures system is working at its maximum efficiency
- Exclusive “Call for Service” diagnostic indicator
- Large 12 square-inch display with extra-large touch keys
- Simplified dual-fuel compatibility without the need for extra controls
- Built-in dehumidification controls
- Your choice of seven-day programmable or non-programmable functionality
- Selectable energy management recovery program
- Hard-wired with battery back-up
- Active system diagnostics mirrors control board error codes at the display

ComfortNet Family of Products

- Air Conditioners: ASXC18, ASXC16
- Heat Pumps: ASZC18, ASZC16
- Gas Furnaces: AMVC95, ACVC9, AMVC8, ADVC8, GMVC95, GMVC8
- Air Handlers: AVPTC, MBVC

TOUCH-SCREEN THERMOSTATS FOR RESIDENTIAL AND LIGHT COMMERCIAL APPLICATIONS

The Amana® brand programmable and non-programmable Touch-Screen Digital Thermostats work with Goodman® brand heating and cooling systems, and are compatible with a variety of accessories.

Product Features

- Intuitive menu-driven set-up, programming, & operation: with audio prompt to confirm touch screen entries
- Permanent program retention during power loss
- Indefinite set-point hold or 4-hour temporary temperature over-ride
- Temporary temperature override: can be set from 15 minutes for temporary adjustments up to 7 days for vacation over-ride
- Auto heat/cool changeover option: automatically switches between heating and cooling programs
- Heating & cooling, heating only, or cooling only configuration (installer selectable)
- Set-point temperature “limited range” capable
- Enhanced (variable) touch-screen security: prevents tampering
- Furnace filter change reminder
- Maintains room temperature to within $\pm 1^{\circ}$
- Room temperature display: can be recalibrated up to $\pm 4^{\circ}$

HPDFLEX™ DUCT (COMMERCIAL)

Product Features

- -2" W.C. negative and +16" W.C. positive static pressure (diameters available: 4"-10", 12", 14", 16)
- Inner core coated with Agion® anti-microbial
- Johns Manville Formaldehyde-Free™ fiber glass insulation — Using Formaldehyde-free insulation helps meet the US EPA recommendation to minimize exposure to formaldehyde and California EPA's recommendation to use insulation with no added formaldehyde.
- Available in R-4.2, R-6.0 and R-8.0
- Galvanized metal core reinforcing
- Weather-resistant bag packaging
- Easy-to-carry package
- Oversized core to fit on collars and register boxes

“RIP-STOP” SILVER JACKET

Product Features

- Contains Johns Manville Formaldehyde-Free™ fiberglass insulation
- Oversized core to fit on collars and register boxes
- Galvanized, metal core reinforcing
- Available in 12½', 25', and 50' lengths for R-4.2, R-6.0, and R-8.0
- Weather-resistant packaging
- Available in boxes and bags
- Meets the following standards:
 - ◇ Approved to UL Standard 181
 - ◇ ETL Listed
 - ◇ HUD/FHA standards 515.2.1 Paragraph B
 - ◇ NFPA standards 90A and 90B

CLOTHES DRYER TRANSITION DUCT

Product Features

- Easy to install
- Boxed universal flexible dryer duct
- Fire-resistant, heavy-duty four-ply aluminum foil laminate construction
- Available size: 4" diameter (actual: 4¹/₈")
- Fits most commonly used electric and gas dryers
- Fits in tight places where rigid metal ducting will not work
- Close wire frame spacing allows tight bends without collapsing
- Meets all UL 2158A requirements:
 - ◊ Proven corrosion-resistant construction
 - ◊ Flame spread per UL 723 testing of less than 25
 - ◊ Complies with stringent fire-resistance testing
 - ◊ Stands up to repeated bending and twisting
 - ◊ Resists puncturing
 - ◊ Strong in tension

ACOUSTIC BAFFLES AND BANNERS

Quietflex® brand Acoustic Baffles and Banners are effective and economical solutions for noise control problems, providing excellent sound absorption. They absorb reflected noise off ceilings, walls, and floors and can be suspended from either ceilings or walls.

Product Features

- Great Sound Absorption
- Economical
- Lightweight
- Class A Flammability Rating per ASTM E 84
- Size can be made to custom specifications

TEXTILE DUCT LINER

QuietFlex® brand Textile Duct Liner is a black mat-faced and edge-coated liner using continuous textile-type glass fibers bonded with thermal-setting resin. The facing is applied during the manufacturing process to ensure a tough and durable bond between the base cover and the facing. The Duct Liner enhances environmental quality by absorbing unwanted noise within the sheet metal duct and increases indoor comfort by decreasing heat loss or gain through the duct walls.

Product Features

- Acoustical Absorption – Helps reduce unwanted noise created by the air ventilation system
- Low Thermal Conductivity – Creates a more efficient and comfortable indoor environment
- Easy to Fabricate and Install – Designed to make the contractor's installation quick and easy through higher tinsel strengths and larger fibers so that the product can adhere to the walls of the duct more consistently
- Resistant to Bacterial and Fungal Growth – Coated with a mold and antibacterial spray to help prevent microbial growth in accordance with ASTM C 1071
- Easy to clean and maintain

DUCT WRAP

Quietflex® brand Duct Wrap is a foil faced fiberglass bonded with thermosetting resin. FSK facing is applied during the manufacturing process to insure a strong, long lasting bond between the base blanket and the facing. Quietflex® Brand Duct Wrap is an external insulation for sheet metal ducts in HVAC systems. It enhances environmental quality by absorbing unwanted noise within the duct, increasing indoor comfort and energy efficiency by decreasing heat loss or gain through the duct walls. All facings are supplied with a single 2 inch (51mm) stapling tab.

Product Features

- Available in R-4.2, R-6 and R-8
- Acoustical Absorption – Helps reduce unwanted noise created within the duct
- Creates a more efficient and comfortable indoor environment

CFB17	Downflow Floor Base	Amana brand 90% 17" wide Downflow Gas Furnaces
CFB21	Downflow Floor Base	Amana brand 90% 21" wide Variable-Speed Gas Furnaces
CFB24	Downflow Floor Base	Amana brand 90% 24" wide Variable-Speed Gas Furnaces
DCVK-20	Alternate Concentric Vent Kit (2")	Amana brand 90% Variable-Speed Gas Furnaces
DCVK-30	Alternate Concentric Vent Kit (3")	Amana brand 90% Variable-Speed Gas Furnaces
DEHUM1	Dehumidistat	Amana brand 90% Variable-Speed Gas Furnaces
EFR01	External Filter Rack	Amana brand 90% Variable-Speed Gas Furnaces
FTK03A	Twinning Kit	Amana brand Single-Stage Gas Furnaces
FSRKA-14/17/21/24	Noise Reduction Kits	All Amana brand Gas Furnaces
HA02	High-Altitude Natural Gas Kit	Amana brand 80% Multi-Speed Gas Furnaces
HALP10	High-Altitude LP Gas Kit	Amana brand 90% Multi-Speed Gas Furnaces
HANG11	High-Altitude Natural Gas Kit	Amana brand 90% Multi-Speed Gas Furnaces
HANG12	High-Altitude Natural Gas Kit	Amana brand 90% Multi-Speed Gas Furnaces
0270K00012	High-Altitude Pressure Switch Kit	Amana brand 90% Multi-Speed Gas Furnaces
LPLP01	Low LP Gas Pressure Switch	Amana brand Gas Furnaces (converted to LP gas use)
LPT-03	LP Conversion Kit (Single Stage)	Amana brand Gas Furnaces
LPM-06	LP Conversion Kit (Two-Stage)	Amana brand Gas Furnaces
SBT14	Downflow Sub-base	Amana brand 80% 14" wide Multi-Speed Gas Furnaces
SBT17	Downflow Sub-base	Amana brand 80% 17½" wide Multi-Speed Gas Furnaces
SBT21	Downflow Sub-base	Amana brand 80% 21" wide Multi-Speed Gas Furnaces

AIR HANDLERS

MODEL	DESCRIPTION	APPLICABLE UNITS
HKR-03*	3 kW Electric Heat Kit w/out Circuit Protection	ADPF, AEPF, ARPF, ARUF, ASPF, AVPTC Air Handlers and MBE/MBR Blowers
HKR-05*	5 kW Electric Heat Kit w/out Circuit Protection	
HKR-05C*	5 kW Electric Heat Kit with Circuit Protection	
HKR-06*	6 kW Electric Heat Kit w/out Circuit Protection	
HKR-08*	8 kW Electric Heat Kit w/out Circuit Protection	
HKR-08C*	8 kW Electric Heat Kit with Circuit Protection	
HKR-10*	10 kW Electric Heat Kit w/out Circuit Protection	
HKR-10C*	10 kW Electric Heat Kit with Circuit Protection	
HKR-15C*	15 kW Electric Heat Kit with Circuit Protection	
HKR3-15	Three-phase 15 kW Electric Heat Kit	
HKR-20C*	20 kW Electric Heat Kit with Circuit Protection	
HKR3-20	Three-phase 20 kW Electric Heat Kit	
HKR-21C*	21 kW Electric Heat Kit with Circuit Protection	
FIL 18-32	Small Chassis (15½")	ADPF, AEPF, ARPF, ARUF, ASPF, AVPTC Air Handlers
FIL 36-42	Medium Chassis (19½")	
FIL 48-61	Large Chassis (22")	

PACKAGED UNITS

APG13/APG15 PACKAGED GAS/ELECTRIC UNITS

MODEL	DESCRIPTION
20464501PDGK	Horizontal Duct Cover for Medium Chassis
20464502PDGK	Horizontal Duct Cover for Large Chassis
LPT-00A	LP Conversion Kit for GPG13
LPM-05	LP Conversion Kit for GPG15
PGC101/102/103	Roof Curb for Small/Medium/Large Chassis
PGED101/102/103	Downflow Economizer for Small/Medium/Large Chassis
PGEH101/102/103	Horizontal Economizer for Small/Medium/Large Chassis
PGFR101/102/103	Internal Filter Rack for Small/Medium/Large Chassis
PGMDD101/102/103	Manual 25% Fresh-Air Damper – Downflow Application for Small/Medium/Large Chassis
PGMDH101/102/103	Manual 25% Fresh-Air Damper – Horizontal Application for Small/Medium/Large Chassis
PGMDMD101/102/103	Motorized 25% Fresh-Air Damper – Downflow Application for Small/Medium/Large Chassis
PGMDMH101/102/103	Motorized 25% Fresh-Air Damper – Horizontal Application for Small/Medium/Large Chassis
SQRPG101/102/103	Square-to-Round Adapter with 16" Round – Downflow Application for Small/Medium/Large Chassis
SQRPGH101/102/103	Square-to-Round Adapter with 16" Round – Horizontal Application for Small/Medium/Large Chassis

GPC13/14H DISTINCTIONS™ AC UNITS & GPH13/14H HEAT PUMP UNITS

ITEM	DESCRIPTION
OT18-60A	Outdoor Thermostat Kit with Lockout Stat
OT/EHR18-60	Emergency Heat Relay kit
PCCP101-103	Roof Curb
PCE101-103	Downflow Economizer for use with PCP101-103
PCEF101-103	Elbow & Flashing with R-8 Liner
PCFR101-103	External Horizontal Filter Rack
PCMDH101-103	Manual Damper
PCMDM101-103	Motorized Damper for use with PCP101-103
PCP101-103	Downflow Plenum Kit
PCP101-103R8	Downflow Plenum Kit for Units with R-8 Insulation
SQRPC101	Square-to-Round Adapter for use with PCCP101-103 Curb 16" Rounds
SQRPC102-103	Square-to-Round Adapter for use with PCCP101-103 Curb 18" Rounds
SQRPCH101	Square-to-Round Adapters for Medium Chassis — 16" x 14"
SQRPCH102-103	Square-to-Round Adapters for Large Chassis — 18" x 14"

CENTRAL AIR CONDITIONING SYSTEMS

Facts

- The typical central air conditioning system is a split system, containing an outdoor air conditioning, or "compressor-bearing unit" and an indoor coil, which is usually installed on top of the furnace in the home.
- Using electricity as its power source, the compressor pumps refrigerant through the system to gather heat and moisture from indoors and transfer it to the outdoors.
- Heat and moisture are removed from the home when warm air from inside the home is blown over the cooled indoor coil. The heat in the air transfers to the coil, thereby "cooling" the air.
- The heat that has transferred to the coil is then "pumped" to the exterior of the home, while the cooled air is pumped back inside, helping to maintain a comfortable indoor temperature.
- Central air conditioning can also be provided through a packaged unit or a heat pump.

Benefits

- **Indoor comfort during warm weather** — Central air conditioning helps keep your home cool and reduces humidity levels.
- **Cleaner air** — As your central air conditioning system draws air out of various rooms in the house through return air ducts, the air is pulled through an air filter, which removes airborne particles such as dust and lint. Sophisticated filters may remove microscopic pollutants, as well. The filtered air is then routed to air-supply duct work that carries it back to rooms.
- **Quieter operation** — Because the compressor-bearing unit is located outside the home, the indoor noise level from its operation is much lower than that of a free-standing air conditioning unit.

GAS FURNACE SYSTEMS

Facts

- A furnace works to keep a home warm in the winter and plays a critical part in the operation of an air conditioning system.
- Furnaces produce heat through the combustion of natural gas in the furnace's burner. The heat produced from this process then passes through a heat exchanger. Air from your home's return air ducts is blown over the heat exchanger, thus warming the air.
- The furnace's blower then blows the warmed air into the duct work, which carries and disperses the warmed air throughout the home.
- During warmer months, the blower inside a furnace continues to circulate return air throughout the home – only this time, the return air has been cooled by being blown over the indoor coil portion of the home's split-system air conditioning system. The condensing coil is typically installed on top of the furnace.

Benefits

- Indoor warmth any time it is required.
- **Energy efficiency** — The efficiency of a furnace can be determined by its AFUE – or Annual Fuel Utilization Efficiency. The minimum efficiency level for furnaces currently manufactured in the U.S. is 80% AFUE. A rating of “80% AFUE” means that for every dollar you spend heating your home; 80 cents are actually applied to the generation of warmth. Compared to many of the 60% AFUE furnaces in older homes, 80% AFUE furnaces are a significant improvement. However, for enhanced energy efficiency, you may wish to consider a 95+% AFUE furnace, such as the Amana brand's line of 96% AFUE Furnaces.
- **Cleaner air** — As your HVAC system draws air out of various rooms in the house through return air ducts, the air is pulled through an air filter, which removes airborne particles such as dust and lint. Sophisticated filters may remove microscopic pollutants, as well. The filtered air is then routed to air-supply duct work that carries it back to rooms. Whenever the HVAC system is running, this cycle repeats continually, constantly filtering and cleaning the air in your home.

This cleaning process improves with the installation of a variable-speed furnace. These furnaces use variable-speed blowers, which shift between several speeds. Variable-speed furnaces will run longer at a low speed, which causes them to filter the indoor air more frequently.

And remember, because the furnace plays an important role in the operation of the air conditioner, its variable-speed blower helps maintain both a consistent indoor temperature and improved air quality year-round.

CENTRAL HEAT PUMP SYSTEMS

Facts

- Using electricity as its energy source, heat pumps are used for either the heating or cooling of your home by transferring heat between two reservoirs.
- In the warmer months, the heat pump acts like an air conditioner, removing heat from the air inside your home and transferring it outside.
- During colder months, heat from the outdoor air is extracted and transferred to the interior of your home. Believe it or not, even a 32° Fahrenheit day produces enough heat to warm a home when using a heat pump.

Benefits

- **Year-round, energy-efficient indoor comfort for moderate climates** — A central heat pump helps maintain comfortable temperatures inside your home and reduces humidity levels year-round. Homes located in regions with severely cold temperatures may either require supplemental heating or be better served with an air conditioner/furnace combination.
- **Cleaner air** — As your heat pump system draws air out of various rooms in the house through return air ducts, the air is pulled through an air filter, which removes airborne particles such as dust and lint. Sophisticated filters may remove microscopic pollutants, as well. The filtered air is then routed to air-supply duct work that carries it back to rooms. Whenever the air conditioner is running, this cycle repeats continually, constantly filtering and cleaning the air in your home.
- **Quieter operation** — Because the compressor-bearing unit of the typical central heat pump system is located outside the home, the indoor noise level from its operation is much lower than that of a free-standing air conditioning unit.

AMANA QUALITY

Americans have been relying on long-lasting Amana® brand products since 1934, when Amana, Iowa, native George Foerstner accepted the challenge of building a dependable beverage cooler. Since then, the Amana brand has enjoyed many firsts, including developing the first cold storage locker, being the first manufacturer to nationally market an upright freezer for home use, and introducing the first portable countertop microwave oven.

The residents of Amana, Iowa, began a long history of pioneering and craftsmanship, and that spirit continues today in the manufacturing of quality Amana Heating & Air Conditioning products. From the technology behind our patented Million-Air™ heat exchanger to what we believe to be the industry's best warranties to the inclusion of high-quality filter dryers in each of our air conditioners and heat pumps, we remain committed to Amana's legacy of providing consumers with heating and cooling products that are built to last.

Look to your qualified Amana brand dealer to obtain expert advice about installation and service. Your dealer can help you decide which model best suits your needs.

Call your AMANA brand dealer today.
